

## FREQUENTLY ASKED QUESTIONS\*

### What is the Endocannabinoid System?

Discovered only a few decades ago, the endocannabinoid system (ECS) is one of the most important physiological systems in our body. It consists of a group of naturally produced compounds called cannabinoids, as well as the receptors to which they bind. The receptors are found throughout the body in the brain, organs, glands, connective tissue, immune cells, and they impact appetite, memory, metabolism, sleep, stress, and immune response.

OXZGEN Hemp-Derived CBD products support the body's ECS and help it to maintain proper balance and immune support. The following studies on Endocannabinoids and CBD can provide further details on your ECS:

### What are cannabinoids?

Cannabinoids are a group of fatty compounds found in hemp and produced by other plants and the human body. They are the primary chemical compounds produced by the Cannabis plant. Tetrahydrocannabinol (THC) is the most well-known and is the ONLY psychoactive cannabinoid. The Hemp-Derived CBD in our OXZGEN products is US Grown and contain <0.3% THC and D9 THC, and our Holistic products they contain <0.05% THC and D9 THC.

Of the over 100 non-psychoactive Cannabinoids, Cannabidiol (CBD) is the main ingredient in OXZGEN. These compounds are key players in normal immune and central nervous system function.

The system within the human body, called the Endocannabinoid System (ECS), has receptors for these compounds and uses them to repair damaged cells. Cannabinoids provide a state of internal stability which is necessary for survival, despite fluctuations in our external environment.

### What is CBD oil?

CBD is a superfood offering health and wellness benefits with more than 85 different phytocompounds to help battle pathogens. Our OXZGEN products are produced with the active ingredient, Cannabidiol (CBD). The Hemp-Derived CBD in our OXZGEN products is US Grown and contains <0.3% THC and D9 THC, and our Holistic products contain <0.05% THC and D9 THC. It is not marijuana and therefore is not psychoactive. It is legal in all 50 states.

### What is THC?

Tetrahydrocannabinol (THC) is the component from the hemp plant that provides a euphoric sensation or that "high" feeling. The Hemp-Derived CBD Isolate in our OXZGEN products is US Grown and contain <0.3% THC and D9 THC, and the Hemp-Derived Broad-Spectrum CBD in our Holistic products contains <0.05% THC and D9 THC.

**Is OXZGEN legal?**

Yes. OXZGEN products are dietary supplements. The Hemp-Derived CBD in our OXZGEN products is US Grown and contains <0.3% THC and D9 THC in our Isolate products and contains <0.05% THC and D9 THC in our Holistic Broad-Spectrum products. They are legal without a prescription and are available in all 50 states. OXZGEN is quality you can trust, with seed to shelf tracking, only produced in FDA Approved Facilities, and Certificate of Analysis (CoA) from third-party labs which ensure quality & complies with state regulations.

**Are the OXZGEN Products FDA approved?**

Although dietary supplements are not required to have FDA approval, OXZGEN adheres to the FDA manufacturing, safety, and labeling requirements.

**How is OXZGEN CBD extracted from the plant?**

OXZGEN uses a CO2 process, which through heat and pressure, eliminates the THC in most of our products.

**Where is the CBD in our OXZGEN products grown?**

Our CBD comes from hemp farms all across the United States of America. Our plants are organically grown, which means without the use of chemicals, synthetic fertilizers, or pesticides.

**From what part of the plant is OXZGEN CBD extracted?**

The primary plant source for OXZGEN Hemp-Derived CBD is the leaves and flower, where the plant is the richest in cannabinoids to enhance the endocannabinoid system and deliver optimal health.

**Where are OXZGEN products manufactured?**

OXZGEN products are manufactured in the United States in FDA Registered Facilities.

**Does OXZGEN interfere or conflict with any medications?**

As with any dietary supplement, please be sure to consult with your physician before use.

**Are OXZGEN products safe to take if you are pregnant or nursing?**

NO. You should not take OXZGEN products while pregnant or nursing.

**Is there an age requirement for ingesting OXZGEN Products?**

OXZGEN products are not recommended for individuals under the age of 18. Please refer to the product label for specific usage and serving guidance.

**How should I store my OXZGEN Products?**

For best results, we recommend you store products out of direct sunlight and between 50 to 80 degrees. Beyond this temperature range, the color may vary, but the effectiveness of CBD remains stable. Please refer to the individual product label for specific storage suggestions.

**What is the CBD content in our products?**

The CBD content is found, listed on each package sold.

**Is OXZGEN safe for my pet?**

Our OXZGEN CBD Pet products are non-toxic and safe for all breeds and sizes. As with any dietary supplement, please be sure to consult with your veterinarian before use.

**Can a pregnant or nursing pet take OXZGEN Pet Products?**

We do not recommend OXZGEN products for your pregnant or nursing pet. As with any dietary supplement, please be sure to consult with your veterinarian before use.

**Where can I find more information regarding OXZGEN CBD Products?**

You can visit [OXZGEN.com](http://OXZGEN.com) for more specific information on OXZGEN and products we offer.
